How To Play

- 1. Choose a Puzzle.** Play in the lid so the magnets stick. The number of stars in the corner of each puzzle shows how hard it is. One is easiest, four is hardest.
- 2. Find Your Shapes.** Each puzzle shows which shapes to use. Put the rest aside.
- 3. Fill the Picture!** Figure out how to arrange the shapes so every pixel fits. The black and white squares on the pieces should always match the black and white squares underneath.
